

GURGAON FIRST
RECHARGE REFLECT RESOLVE announces an Expo on

SPONSORSHIP AVAILABLE

ECO GREEN INITIATIVES

Sustainable Solutions for City, Homes and Offices

December 13 (Saturday), 2014, IRRAD, Sector 44, Gurgaon

IN SUPPORT WITH

ECO GREEN INITIATIVES

Agenda

- Rapid urbanisation is putting a severe strain on resources such as air, water, energy and environment. Serious health issues are cropping up. Congestion, pollution and water and energy shortages are resulting in rapidly declining quality of living in cities. It is high time we come together to adopt solutions that help save our valuable resources for a better tomorrow.
- While governments can adopt sustainable policies on water conservation, public transport, energy efficiency and use of solar technology, and authorities can help implementing them, individuals and communities can take small sustainable steps in their own right.
- Corporates can opt for green buildings or responsible e-waste disposal for instance. Hotels and guest houses can generate bio-gas from kitchen waste. RWAs can take up community level composting of wet waste. Residents can make the right choices at homes and to help conserve resources.
- Indeed, some of our smallest decisions can make a big difference. What kind of lighting do we use to light up our homes? Can we collect our organic waste as a community and start composting? How do we use water at our homes to bathe, wash cars, for gardening and toilets? How open we are to car pooling or using our bicycles to travel small and safe distances? Are we open to use of solar cookers or solar heating systems?
- The Expo will bring together sustainable solutions providers in areas of waste management, water conservation, energy efficiency and environment under one roof to present their products and solutions to key stakeholders. It will showcase innovative and workable sustainable solutions that can help conserve resources at the level of community, homes and offices.

Who should Attend?

The delegates in the workshop will be prominent people from:

- | | |
|--|--|
| • Gurgaon Authorities | • Progressive citizens of Gurgaon |
