

Greetings from Gurgaon First!

Gurgaon First is delighted to facilitate the launch of Solar Roof Top Action Plan Study for Gurugram by the Centre for Science and Environment. The study findings and discussion is the basis of a half- day solar meet in Gurugram with progressive RWAs, solar players, solar enthusiasts, NGOs, solar associations and solar facilitators.

We are inviting you for the Meet on June 22 at 9 am at IVF. The Meet will feature presentations by CSE and Gurgaon First, as well as roundtable discussions and will conclude with Lunch.

The main **objective** of the CSE study is to review the picture of solar rooftop installations in Gurugram District and recommend actionable strategies based on the observed challenges impeding the expected and speedy adoption of Solar rooftops.

The purpose of this event is to bring different stakeholders together and try evolving strategic actionable changes which can help expanding and make the SRT sector operate autonomously in India.

It would be great if you could send your confirmation of attendance on teamgurgaonfirst@gmail.com. Look forward to seeing you,

Regards

Shubhra Puri
